EDUCATION

	B.Tech in Computer Science & Engineering Maharishi Markandeshwar (Deemed to be) University, Mullana, Haryana	8.40 CGPA upto 6th sem	07/2024 - Present
	Intermediate BSEB M.J.K , BETTIAH, BIHAR	75.2%	04/2019 - 04/2021
	Matric BSEB ABSS, BETTIAH, BIHAR	82.2%	04/2017 - 04/2019

INTERNSHIPS

	CodSoft (Online Platform) In which projects are completed by me are related to Data Science. <ul style="list-style-type: none">Use the Titanic dataset to build a model that predicts whether a passenger on the Titanic survived or not.Movie Rating Prediction project enables you to explore data analysis, preprocessing, feature engineering, and machine learning modeling techniques.Use the Iris dataset to develop a model that can classify iris flowers into different species based on their sepal and petal measurements.	May 2024- June 2024
	Forge (Online Platform) Hands on experience of completed PWC Power BI Project. To gain the knowledge of data visualization internship project for TCS.	April 2024-May 2024

ACADEMIC PROJECTS

	Machine Learning Project <ul style="list-style-type: none">The ML project in which create the pose detection system which is helpful for exercise /gym.	06/2024 - Present
	Blog Project <ul style="list-style-type: none">Using Django Framework created blog web where we can read and post the blogs.	03/2023 - 06/2023
	Intelli House <ul style="list-style-type: none">The Intelli House project is related to the IOT where used sensors to make a smart home.	10/2023-03/2024

SKILLS

Python C R Machine Learning DSA Data Analysis Data Visualization
Power BI MongoDB SQL Creative Thinking Teaching

CERTIFICATES

HackaversuMM'22

May 2022

Participation Certification in college level Hackathon organized by (MMEC).

CodSoft Internship

May 2024-June 2024

After successfully completed internship project got an certificate.

Forage Internship

April 2024-May 2024

Got Certificate for data visualization from PWC Power BI Project.

And also got Certificate for data visualization from TCS.

PERSONAL PROJECTS

Data Analysis

- I phone sells analysis completed.
- Netflix stock analysis completed.
- IPL 2023 analysis completed.
- Employee career survey analysis completed.

Machine Learning

- Use the Titanic dataset to build a model that predicts whether a passenger on the Titanic survived or not.
- Movie Rating Prediction project enables you to explore data analysis, preprocessing, feature engineering, and machine learning modeling techniques.
- Use the Iris dataset to develop a model that can classify iris flowers into different species based on their sepal and petal measurements.

Python

- To build a snake -game using python programming.
